SUPPORT TOOL FOR
AUTONOMY AND REFLECTION

Daily Caregiver Log

HEALTH, BEHAVIOR, PARTICIPATION &
DAILY LIVING WORKBOOK

Supporting individuals to live
their best life through intentional
care and meaningful support.

THIS WORKBOOK HELPS YOU TRACK:

- Physical health
- Behavior & mental health
- Participation in activities
- Community engagement
- Daily living skills (ADLs)

IT CAN BE USED TO:

- Monitor daily progress
- Identify patterns & trends
- Communicate clearly
with your team
- Support person-centered
care

IT SUPPORTS:

- Consistent, high-quality
care
- Independence &
skill-building
- Personalized goals &
interventions

EVERY ENTRY MATTERS.

Your observations help
create better outcomes
and brighter tomorrows.

INTENDED USE

The STAR Daily Caregiver Log is designed to help caregivers consistently document:

- Physical health observations
- Activities of Daily Living (ADLs)
- Behavior and emotional regulation
- Prompt levels and independence
- Participation in Employment / Vocational, Community at Large, Home / Family
- Community, Leisure / Recreation, and Activities of Daily Living (ADLs)
- Significant events and caregiver observations

The information collected may be used to improve communication between caregivers, identify patterns over time, support person-centered planning, and provide meaningful documentation for supervisors, guardians, care teams, and healthcare providers.

ABOUT STAR

STAR stands for **Support Tool for Autonomy and Reflection**.

STAR was created to make documentation simpler, more meaningful, and more useful, helping caregivers spend less time on paperwork and more time supporting the people they serve.

How to Use This Caregiver Log

A SIMPLE, CONSISTENT WAY TO OBSERVE, COMMUNICATE & SUPPORT

This log helps caregivers track daily observations, share important information, and identify patterns over time. Use it in the way that works best for you—digitally on your iPad or printed in a binder.

THIS LOG WILL HELP YOU:

OBSERVE

Capture daily behaviors, mood, sleep, meds, health, and other important details.

COMMUNICATE

Provide clear, consistent updates between caregivers, family members, and professionals.

IDENTIFY PATTERNS

Use monthly dashboards to spot trends and better understand needs and triggers.

SUPPORT PROGRESS

Track what strategies, supports, and interventions are helping.

ADVOCATE

Use your data to advocate for the right supports and services.

A GENTLE REMINDER

You don't need to be perfect—consistency is more important than perfection.
Small notes today can lead to big insights tomorrow.

*You are an important part of the support team.
Thank you for all you do.*

How to Set Up & Use Your Caregiver Log

DIGITAL USE (ON IPAD OR TABLET)

1

DOWNLOAD

Download the PDF to your device.

2

IMPORT

Open the file in a PDF annotation app such as Goodnotes, Notability, or similar.

3

DUPLICATE PAGES

Duplicate the Daily Caregiver Check-In page for each day you want to track.

EXAMPLE

September 2026

- Monthly Overview
- Daily Check-In x 30
- Monthly Summary
- Notes

October 2026

- Monthly Overview
- Daily Check-In x 31
- Monthly Summary
- Notes

4

START TRACKING

Use the tools and dashboards to record observations, share updates, and review patterns.

PRINTABLE USE (IN A BINDER)

1

PRINT MONTHLY PAGES

Print the Monthly Overview page once for each month.

2

PRINT DAILY PAGES

Print as many Daily Caregiver Check-In pages as needed for each day.

3

ADD TO BINDER

Place the pages in a binder or folder in the order that works best for you.

4

USE & SHARE

Fill out pages daily and share information with other caregivers, family members, or professionals.

THIS LOG IS UNDATED

Write in the month, dates, and information yourself.
Reuse these pages month after month, year after year.

Make it your own. Use it your way.

STAR

SUPPORT TOOL FOR AUTONOMY AND REFLECTION

Quick Reference Guide

EVERYTHING YOU NEED TO COMPLETE THE DAILY CAREGIVER LOG.

PHYSICAL HEALTH

APPEARS HEALTHY

No new health concerns observed during the shift.

ILLNESS / DISCOMFORT

Document any signs of illness, pain, injury, fever, or physical complaints.

SLEEP

Record hours slept, approximate bedtime, and whether night waking occurred.

APPETITE

Normal, increased, or decreased.

BOWEL MOVEMENT

Document whether a bowel movement occurred during your shift, if applicable.

PRN MEDICATION

Record medication given, reason, and approximate time administered.

BEHAVIOR & MENTAL HEALTH

MOOD

Choose the word that best describes the individual's overall mood during the shift.

AGGRESSION

If aggression occurred, select all types observed and rate the highest level of severity.

ATTENTION

Choose the description that best reflects overall attention and engagement.

ANOMALY

Document unusual behaviors, changes from baseline, or anything requiring follow-up.

PARTICIPATION

Document participation in: Employment / Vocational, Community at Large, Home / Family Community, Leisure / Recreation, and Activities of Daily Living (ADLs).

For each activity, record: Participated, hours, prompt level used, and notes or description of activity.

ACTIVITIES OF DAILY LIVING (ADLS)

Examples include:

- Hygiene
- Dressing
- Cooking / Food Preparation
- Cleaning / Household
- Community Errands / Shopping
- Other Independent Living Skill

Record the highest prompt level needed for each activity completed.

PROMPT LEVEL	DESCRIPTION
0 Independent	Completed without prompts or assistance.
1 1-2 Prompts	Needed one or two verbal reminders.
2 Periodic Prompts	Needed occasional reminders throughout the activity.
3 Frequent Prompts	Needed repeated prompting to stay engaged or complete the task.
4 Dependent	Required continuous prompting, hand-over-hand assistance, or caregiver-led completion.

SUPERVISOR NOTIFICATION

Check this box if follow-up is recommended because of:

- Medication issue
- Illness or injury
- Behavioral incident
- Unusual behavior
- Other concern

Notes

Tip: Document observations objectively. Describe what was seen or heard rather than making assumptions about intent.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. At the top center, there are two small black marks, possibly from a staple or punch hole. The paper appears to be part of a notebook or binder.

STAR

SUPPORT TOOL FOR AUTONOMY AND REFLECTION

Your Journey Continues

If you've reached this page, I want to say something that I know you don't hear often enough...

I'm proud of you.
And You are doing a GREAT job!

I didn't create this workbook because I'm an expert looking in from the outside. I created it because I live this life every day as a parent, guardian, and caregiver to my adult son, Ben, who has autism and complex mental health needs.

I know what it's like to juggle appointments, medications, med changes, behavior changes, celebrations, setbacks, paperwork, employees, and everything else that comes with supporting someone you love. I also know the challenge of finding, training, and keeping great caregivers, and how important it is for everyone to have the same information.

Over the years, I found myself thinking, *I wish there was an easier way*. Not just to keep track of everything and communicate it to the team, but to help me capture, see, and understand the little things that are so easy to miss. Because I've learned that it's often those small, subtle changes—noticed over days, weeks, or months—that tell a story we couldn't see before.

When we begin recording those seemingly small details over time, patterns begin to emerge. Those patterns can help explain behavior changes, identify triggers, recognize progress, and guide better decisions. They can lead to meaningful conversations with providers, support teams, caregivers, and family members. They can influence goals, outcomes, programming, community activities, leisure opportunities, and the supports a person receives. Sometimes they simply remind us that a difficult season is temporary. Other times, they help us recognize just how far we have come.

Life is never a straight path, it's full of twists, turns, and distractions. Sometimes we move confidently toward our goals. Other times, unexpected challenges (or "zigger zaggers," as Ben calls them) mean we need to pause, pivot, change direction, or begin again. That's not failure. It's just part of the journey.

My hope is that STAR becomes more than a workbook. I hope it becomes a trusted guide that helps you notice even the little things that speak subtly and use them to reflect with greater understanding and move forward with confidence. Because when we can clearly see where we've been, we're better equipped to decide where to go next.

Just as people have looked to the North Star to help them find their way, my hope is that the tools I create help you navigate your own journey with clarity, confidence, and hope.

Thank you for trusting me to be a part of your journey. I'm incredibly honored. No matter where your journey takes you, may you always have your North Star to help you find your way.

With gratitude,

Beth Adams

Parent • Guardian • Caregiver

Creator of North Star Solutions Tech and the STAR Workbook

STAR Daily Caregiver Log

A practical workbook designed to help caregivers document one day at a time.

STAR stands for Support Tool for Autonomy and Reflection. It was created to help caregivers capture meaningful daily information, recognize patterns over time, and support thoughtful, person-centered care that promotes greater independence, informed decision-making, and a higher quality of life.

Created by Beth Adams, the mother of an adult son with autism and complex mental health needs, the STAR Daily Caregiver Log was born from years of real-world caregiving, advocacy, and collaboration with support teams. After coordinating care, preparing for ISP meetings, tracking behaviors and health concerns, and searching for a better way to organize information, Beth developed a system that combines practical daily documentation with meaningful long-term tracking.

This workbook was built from experience—not theory.

Whether you're a family caregiver, Direct Support Professional (DSP), shared living provider, case manager, or part of a multidisciplinary support team, the STAR Daily Caregiver Log provides an organized, easy-to-use system for documenting information that supports care, communication, and decision-making.

Unlike a traditional caregiver journal, the STAR system transforms everyday observations into meaningful data. Each daily caregiver check-in feeds directly into weekly and monthly tracking pages, allowing caregivers to record totals, identify patterns, and visualize progress through easy-to-understand charts and dashboards. Instead of searching through pages of notes, you'll have clear summaries that support ISP meetings, healthcare appointments, behavior planning, and person-centered decision-making.

Consistent documentation helps:

- Identify patterns and trends over time
- Improve communication between caregivers and support teams
- Support person-centered planning
- Prepare for ISP and care team meetings
- Monitor progress toward individual goals
- Make healthcare and support decisions using organized, meaningful data

Inside you'll find SIX MONTHS of:

- Daily caregiver logs
- Monthly health, behavior, participation, and Activities of Daily Living (ADL) tracking
- Mood and wellness dashboards
- Goal tracking and progress monitoring
- Community participation and activity records
- Medication and appointment logs
- Observation and communication notes
- Monthly review and outcome summaries
- Quick-reference caregiver tools
- Completed sample pages to help you get started

Whether you're supporting someone with autism, intellectual or developmental disabilities (IDD), mental health challenges, acquired brain injury, dementia, or other long-term support needs, the STAR Daily Caregiver Log helps transform everyday observations into organized information that supports care, communication, and meaningful planning over time.

Every check-in counts. Every observation has value.

Every person deserves individualized, person-centered support.

Because every day is an opportunity to help someone shine.
